

HPGE Environmental Maths Day

Join us for the High Potential & Gifted Education (HPGE) Environmental Maths Day!

The program covers elements of the creative, intellectual and social-emotional domains.

Rumbalara EEC teachers will come to your school as an incursion to encourage students who have an interest in Maths and would benefit from developing their environmental maths skills at a high level.

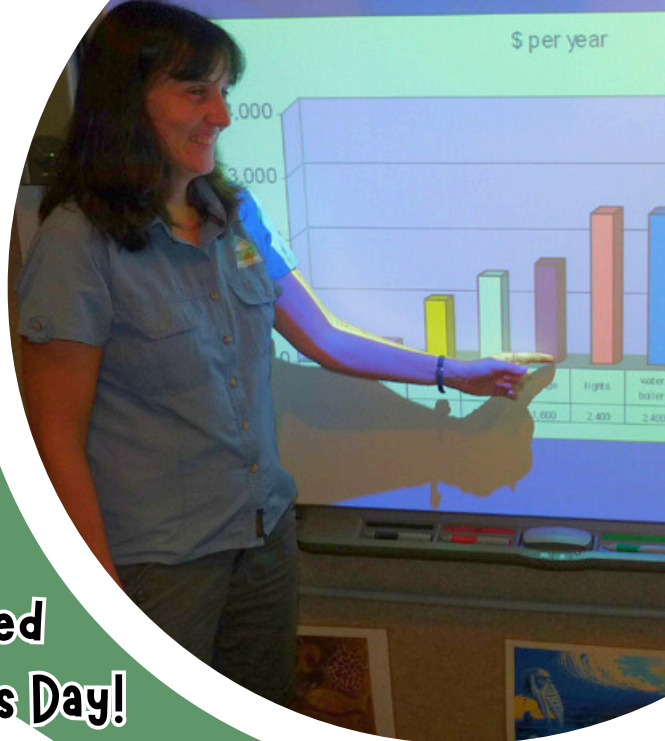

The identified students will then be invited to participate in another environmental maths workshop with a specialised maths teacher and environmental scientist.

Program for 1/2 Day Incursion

Use your maths skills to explore nature!

3 stations! - 3 challenges!

Using navigation, measurement, shapes and angles, patterns and symmetry, graphing and biostatistics - discover the mystery of maths in nature.

Cost:
\$5 per student

Book NOW!
