

Water Efficiency Program

School incursion program

BOOK IN FOR YOUR FREE 5 LESSON INCURSION PROGRAM TODAY

Call Rumbalara EEC today on 02 4324 7200 to book in your school

Fully funded

The program involves one of our educators visiting your school for just 2 hours per day for 5 days to work with teachers and students to learn about water conservation. You will also receive two days of teacher release time for training and planning.

Water audit

Includes a student led assessment that collects data to assess and evaluate how water is used throughout the school. This will identify strategies needed for planning.

Water Savings Action Plan

A Water Savings Action Plan will develop specific steps your school can take to reduce its water usage, improve efficiency, and promote conservation.

Free water efficiency education kit

The program includes \$300 worth of equipment the school can use to improve their water efficiency in the future.

This program is run by Department of Education qualified and specialised teachers who will customise the program to your school context.

The program can be run with classes from Stage 1, 2 or 3.

The program is strongly linked to STEM, HSIE and mathematics KLAS with a focus on sustainable futures.
