

Lyrics

The country's alive
Connected to me
At one with my spirit
This land sets me free

This is our place, this IS our country, as far as we can see
the land is our mother, it gives us all we need

Listen to earth, respect our elders, it's how we learn and know
Let's all join together and help each other grow

Look up into the night sky - see stories of our land
The moon and stars above us- Mirrabooka
Shining grand

Rap

Brothers, sisters,
aunties, uncles
Land, sky and the sea
All our people!
All our country, set our spirits free

Chorus

The country's alive
Connected to me
At one with my spirit
This land sets me free

See water all around me, lakes, rivers and the sea,
Stingray, dolphin, whales breaching
I feel their energy

Stand tall upon the mountain and see the water flow
Running river, running spirit
Platypus dive down below

Goanna on the red gum, black snake in the sun
Eagles soaring, wallabies jumping
Water dragons run

Chorus

The country's alive
Connected to me
At one with my spirit
This land sets me free
